CAMSER is based in Emilia Romagna, one of the wealthiest northern Italian regions, with a long-standing tradition in mechanics.

FERRARI, LAMBORGHINI, DUCATI AND MASERATI are some of the world-known brands that have their origins in this area and a lot of other manufacturing leaders in the sectors of packaging, medical equipment, power transmission and automation, have their headquarters in this region.

The small and medium companies, here located, can grant long-standing experience and high skills in every phase of engineering, prototyping, manufacturing and after sales assistance, thanks to an hystorical background and open-minded approach.

CAMSER is the right partner for OEM and distributors that want to find qualified and selected partners for the international business development.
